

# The Old England Hotel, Windermere

Set on the shores of England's largest lake, The Old England Hotel was devastated by a fire in 2011.

200 guests were evacuated while 5 fire engines tackled the blaze, which began in the basement Sauna.

The fire caused severe damage to all of the leisure facilities, and smoke damage to the remainder of the property. Buildzone were instructed to undertake the complete reinstatement of the hotel.

Total value:  
**£700,000**

Duration:  
**10 weeks**

**The repair works included renovations to the pool, sauna, steam room, and complete redecoration to all smoke damaged areas.**

The hotel remained operational during our works. As the site was live, the safety of the guests, staff and general public was our top priority whilst carrying out our works, whilst also ensuring the hotel's guests could still have the relaxing get away they came for.

This beautiful hotel offers a tranquil and calming holiday and spa in the Lake District; it was essential that we worked quickly and efficiently so that the leisure facilities could be reopened as soon as possible.

**Buildzone completed works in just 10 weeks.**
